

Clarity Quick Claim

Increase satisfaction with your FSA and HRA plan

Create a seamless experience for consumers by automating FSA and HRA claims.

Some of the biggest complaints consumers have about pre-tax benefit plans are filing claim forms and the requirement to send in receipts after they have used their debit card. To make matters worse, the IRS requires that a card be turned off if a receipt is not provided.

Clarity Quick Claim can automate these critical processes by linking insurance carriers directly to Clarity. Our platform automatically collects, validates, and pays for eligible FSA and HRA expenses and substantiates card swipes, eliminating the need to submit receipts.

The power of Quick Claim

- ✓ Eliminate the need to send in receipts
- ✓ Avoid card deactivation from substantiation concerns
- ✓ Automatically reimburse employees for eligible claims
- ✓ Save consumers time
- ✓ Increase participation in FSA plans
- ✓ Increase satisfaction in consumer benefit plans

How Quick Claim works

1

A consumer links their insurance carrier to the Clarity platform.

2

Quick Claim automatically retrieves new insurance transactions.

3

Clarity creates a claim and pays it, or substantiates a card purchase.

About Clarity Benefit Solutions

For over 25 years, we've helped clients, brokers, and participants navigate healthcare challenges with easy and affordable solutions. We're built to fit your business with a wide-ranging portfolio that includes online benefits management, FSAs and HRAs, dependent care, commuter benefits, Affordable Care Act compliance, and our proprietary Ready For Life HSA. Our clients and partners rely on our staff of industry experts, earning us a 97 percent client-retention rate. By offering class-leading benefit tools and backing them up with dedicated service, we bring benefits into focus for everyone.
